Traveling from the Airport

Riga International Airport (Lidosta in Latvian) is located 15 km from the city Centre.

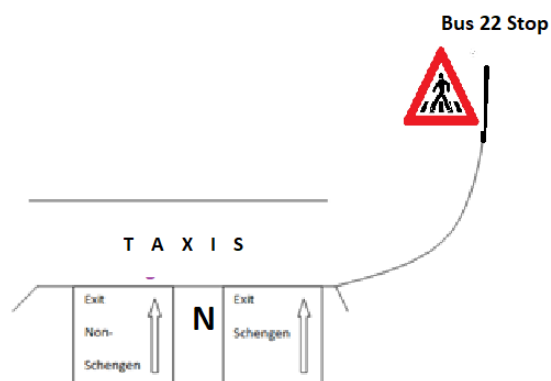

It can be reached only by road traffic (taxi, public transport, normally around 30 min). Please note that during rush hours the journey time can be longer (16:00-18:00, travel time may exceed 50 min by public transport). Train connection is not available to Riga Airport.

At the airport, there can be longer waiting lines for security in the morning or in the time span 16:00 – 18:00, because departures occur in a very profound “batch”.
